Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Friday 01 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cold, with frost and some wintry showers at times.

Today:
Patchy light rain moving southwards across England and Wales, perhaps with a little light snow in places at first. Freezing fog patches in the south, slow to clear. Sunny spells and showers in the north, wintry for northern Scotland. Cold.

Tonight:
Patchy rain clearing the southeast then many parts seeing clear spells with a widespread frost. Showers affecting some coasts, wintry in the north.

Saturday:
Many inland areas dry with sunny spells. Wintry showers affecting coastal areas, perhaps with some more persistent rain, sleet and snow coming inland later. Cold.

Outlook for Sunday to Tuesday:
Cold, with widespread and locally severe overnight frosts in west/northwestern areas. Rain, sleet and snow affecting some eastern/southern areas, more settled in the west/northwest. Windy across the south.
